Dear Mr. Varahraam,

Thank you for your interest to participate in the Program and for the return of the completed laboratory application form. Following our review of your application and supporting documents, we are pleased to inform you that your laboratory has been formally accepted and recognised in status as a SASO approved laboratory to perform the relevant testing, on the product category specified in your application, as required by the Program's activity.

It will be your responsibility to ensure that you receive the latest information on the development of the Program and SASO standards. You will be legally accountable for ensuring all testing performed is based on SASO standards if available, otherwise, based on international standards to satisfy the requirements of the Program, taking into account, where applicable, the specific requirements relating to the Saudi Arabian National Deviations. Accordingly if you agree to the terms of your engagement in the Program, please sign below and return this letter to SASO by fax (+ 966 1 456 9977) at your earliest.

Best regards

Ibrahim Al Kholaiif
Director General of Quality Control Dept.- SASO

8/06/04.

I/we accept the terms of the above letter and agree to abide by its requirements.

SUBJECT: RMRC Test Report Format / SASO Approval Letter

Dear Dr. Naaser Varahram / Mr. Parviz Davani,

Thank you for the test report No. 83/172 dated 12 April, 2004. Further to our letter faxed by my colleague, Mr. Biju C. George, Manager-SASO ICCP Operations we would like to inform you that the test reports for various vehicle spare parts tested at RMRC are not consistent in their format. Some of your reports state the part number of the item tested along with the applicable standard used to test whereas the test report No. 83/172 does not mention any such details. Henceforth to avoid any doubts regarding the authenticity of the test report we would request you to follow following procedure:

- All samples received by RMRC should have SASO sticker with a file number reference on it. (Example: SAR 451028)
- On receipt of sample for testing a confirmation fax to be sent to Mr. Biju C. George (Fax: +97165583855) indicating the SAR file reference number, item description, item part number, applicable standard used for testing and approximate duration of the test.
- On completion of all tests the test report is to be faxed to Mr. Biju C. George indicating SAR file reference number, item description, item part number, applicable standard, image analysis report and a conclusive result on the test report stating whether the sample fails/passes the SASO/International applicable standards.

Note: Samples can be either sent by our SASO ICCP office or through the exporter directly. In case of exporter in direct contact with RMRC above procedure is requested to be followed with a copy to SASO ICCP office - Mr. Biju C. George

Additionally we are pleased to inform you that SASO has officially approved your laboratory under the SASO ICCP Program. Kindly sign and fax back the approval letter which was faxed to you on 9 June, 2004 by SASO.

Also please provide us with your email address for fax and better communication you may fax your reply on +97165385876 or email me on anil.fernandes@intertek.com. If you require any further information please feel free to contact me on +971 6 5389335 Extn: 42

With Best Regards,

Anil Fernandes
